

Payment Links

This feature helps you accept payment for your products or services from your customers seamlessly via a unique URL. Once the basic details described below are provided a unique link is generated and can be shared with your customers to make payment via any of our supported currencies.

Create payment link

> BaseUrls

POST - `{{baseurl}}/paymentlink`

Authorization

Set value to `Bearer SECRET_KEY`

Content-type

Set value to `application/json`

| Param | Required? | Description |
|---------------|-----------|--|
| title | Yes | This should be the name/title of the payment link |
| currency | Yes | Allowed values are: USD, NGN, GHS, KES or ZAR only |
| amount | Yes | This should be in fractional units (kobo for NGN, cents for USD). 300NGN will be passed as 30000 |
| isFixedAmount | Yes | <p>This should be either true or false.</p> <p>If set to "true", your customers would be required to pay the amount in your request body.</p> <p>If "false" it acts as a donation link; whereby the amount in your request will be displayed as a mere suggestion to your customers. However, your customers can enter their preferred payment amount.</p> |
| type | Yes | This should always be passed as easy |
| purpose | No | This is a description of the payment link that should appear on the your dashboard when viewing the link |

If the API call is successful, we will return a URL which you can share with your customers to input their payment information in order to complete the transaction.

Here's a sample request and response

Sample request:

Required parameters

Optional parameters included

```
{
  "title": "The test link",
