S **Startbutton Product API**

Copy

S2S EFT (ZAR)

Initiate S2S

Authorization	Set to Bearer PUBLIC_KEY
Content-Type	Set value to `application/json`

> ⓘ The public key can be gotten from the 'Settings' page on your Startbutton dashboard.

Post a request to the URL below, where the base URL is determined by the environment you are in.

> BaseUrls

Endpoint

POST `{{baseurl}}/transaction/initialize/s2s/eft`

Here's a sample request below

Required parameters

```
{
    "amount": 300000,
    "currency": "ZAR",
    "email": "test-pms@customer.com"
}
```

ⓘ The amount should be in fractional units.

Here's a sample response

Response

```
{
    "success": true,
    "message": "open provided URL",
    "data": {
        "nextStep":
"https://standard.paystack.co/eft/EFT_OZOW/3549648797",
        "reference": "42e9b52b13ed"
    }
}
```
